Received of M^r. Oliver Holden a Book
entitled "The Union Harmony" &c. in two volumes
"By Oliver Holden" to be preserved in the Office of
the Department of State agreeably to Law.

E. G. Taylor Chief Clerk

THE

UNION HARMONY,

OR

UNIVERSAL COLLECTION of Sacred Music.

IN TWO VOLUMES.

VOL. I.—CONTAINING,

- I. The **RUDIMENTS** of **MUSIC** laid down in a plain and concise manner.
- II. A large and valuable **COLLECTION** of **TUNES**, suited to all the metres now used in the various worshipping Societies in America, many of which were never before published.

By **OLIVER HOLDEN.**

Author of the **AMERICAN HARMONY.**

“ Music’s the cordial of a troubled breast, | The gentle spell that charms our cares to rest.
 The fittest remedy that grief can find, | And swells with heavenly hope the pensive mind.”—*Harris.*

Published according to Act of Congress.

PRINTED, *Typographically*, at *BOSTON*,
 BY **ISAIAH THOMAS** and **EBENEZER T. ANDREWS.**

Sold at their Bookstore, No. 45, Newbury Street; by said **THOMAS** in **WORCESTER**; by the **EDITOR**, at his Store in **CHARLESTOWN**; and by the **BOOKSELLERS** in **BOSTON.**—1793.

A D V E R T I S E M E N T .

MANY pieces intended to adorn this work unhappily came too late for insertion. Such of them as are calculated for the second volume, which is now in the press, and will be speedily published, shall have a place.

Grateful acknowledgements are due to several Gentlemen, who are Authors and Teachers of Music, for their friendly hints and communications; a continuation of their favours, will lay the compiler under still greater obligations.

Those tunes in this work, which are ancient, were selected from the best European publications. And those which are the works of modern Authors, in our own country, have been extracted from the most correct copies which could be obtained. Mr. Billings, and other American Authors, who could conveniently be applied to, have generously given their consent to the publication of such of their tunes as appear in this work.

In a work of this nature, errors are unavoidable; only two have as yet been discovered. If any more should hereafter appear, it is hoped they will be viewed with candour, and mended by the observer's pen.

ERRATA. The first note in the treble of Conquest should stand on G. The last note but one in the 22d bar of the tenor of Lynn should stand on B.

P R E F A C E.

THE study of the art of music is worthy the attention of all ; especially of those to whom heaven has lent such talents as render it practicable for them to attain to the knowledge of it. It is matter of lamentation to all the lovers of sacred music, that so little attention is paid to so *sublime, important, and necessary* a part of DIVINE WORSHIP. If provision should be made, whereby the youth at a certain age might be taught the first *principles* or *rudiments* of music, its happy effects would very soon be discovered in our *worshipping assemblies*. Instead of *loud, harsh, unmusical* performances, or of none at all (which is but a little worse) we should have *order, beauty and harmony* in the house of GOD ; and a constant and general attendance on public worship and the institutions of the gospel. Far the greatest attention will be paid, and *unity and friendship* more generally prevail, in those societies where this part of worship excels. Many who possess *natural abilities*, which, if improved, would render them eminently useful in public life ; for want of opportunity and encouragement, are obliged to bury their *musical talent* in the earth.

As public utility was one inducement to the publication of the following sheets, no pains have been spared to render them correct, useful and pleasing. In a work intended for general use, it is probable that some tunes which are in high estimation with some performers, will be less approved of by others ; this is utterly unavoidable, considering the great *variety* of airs which are produced by the different composers in ancient and modern times, and the diversity of taste which will always exist among the numerous practitioners of music. These circumstances have claimed and received particular attention.—No approved tune, though in some measure imperfect in composition, has been rejected ; and no generally disapproved one, though less imperfect, has been inserted. It is therefore presumed that in so large a work as this, every school or singing society into whose hands it may fall, will find a sufficient number of tunes adapted to their purpose and adequate to their wishes. Fuging music in general is badly calculated for divine worship ; for it often happens that music of this description will not admit of a change of words without injuring the subject. In such cases it would be better to reject the tune, than to obscure, or injure the words ; but, when a tune is so contrived as to admit of changing the words with propriety, the

parts

parts falling in by turn serve to convey the meaning and impress the importance of the words more forcibly than otherwise they would, especially if the subject be praise.*

It has become a practice of late to introduce *new, airy* music into public worship, in preference to *grave* airs; the propriety, or impropriety of this depends, in some measure, upon the reception it meets with, among those who are far advanced in life, or have not the means of acquiring the knowledge of new tunes. In all worshipping societies, more or less of this description are found. In such cases, would it not be best to cultivate a spirit of accommodation, by adopting a number of tunes, both new and old, which are best calculated to express the various subjects to which they may occasionally be adapted, and at the same time give an opportunity to every one who wishes, to join in that part of worship which is equally the privilege and duty of all?

In regard to a method of *teaching music*, the one adopted in this work, is in some instances singular; but from some considerable experience in teaching, and from frequent observations on the subject, it is humbly presumed that it will meet the approbation of the teachers and practitioners of that sacred science?

That this work may answer its important design, in furnishing singing schools and societies with a large and valuable collection of music, sacred to divine worship, and with proper explanations of the different characters necessarily included, is the sincere wish of

The public's most obliged servant,

OLIVER HOLDEN.

CHARLESTOWN, *Massachusetts*, August, 1793.

* It is asserted by some, that music is, or should be, confined to praise, adoration and thanksgiving; but it is evident, according to *sacred* and *profane* history, that the ancients made use of music, both vocal and instrumental, to express *contrition, lamentation, and confession* — The propriety of adapting music to those several subjects cannot be rationally doubted; yet as divine music on earth is an imitation of the employment of the blessed in heaven, a nearer resemblance may be found in the cheerful, than in the pensive key.

RUDIMENTS of MUSIC.

LESSON I.

Tenor and Treble stave.

Counter stave.

Bass stave.

Space above
Fifth line
Fourth space
Fourth line
Third space
Third line
Second space
Second line
First space
First line

AFTER the scholar has become familiar with his letters, as they are affixed to the several lines and spaces on the stave, he may proceed to *call* the notes by the names of the letters which they represent, beginning and ending at G, repeating them up and down, alternately, until he can recite them readily without the book. In the next place it will be necessary to *sing* them by the names of the letters, observing at the same time that between B and C, and between E and F, is but half a tone, either ascending or descending. This lesson is of great importance to the learner, and should be well understood: If his ear be accurate, a good understanding in his gamut, will lay a foundation for further and speedy improvement; if it be inaccurate, no succeeding lesson will be of any service.

LESSON II.

THE natural place for me is in B,

But if B be flat me is in	E	If F be sharp me is in	F
If B and E be flat me is in	A	If F and C be sharp me is in	C
If B, E and A be flat me is in	D	If F, C and G be sharp me is in	G
If B, E, A and D be flat me is in	G	If F, C, G and D be sharp me is in	D

When me is found, the notes ascending in order, are, fa, sol, la, fa, sol, la, then me again. The notes below descending are, la, sol, fa, la, sol, fa, then comes me again.

LESSON III.

L E S S O N. III.

1 Semibreve.	2 Minim.	3 Crotchet.	4 Quaver.	5 Semiquaver.	6 Demifemiquaver.
1 Semibreve rest.	2 Minim rest.	3 Crotchet rest.	4 Quaver rest.	5 Semiquaver rest.	6 Demifemiquaver rest.

The notes and rests thus arranged, explain at one view, the proportion they bear to each other; the 1st being twice as long as the 2d, the second twice as long as the 3d, the third twice as long as the 4th, &c.—The rests are called notes of silence; whenever they occur in a tune, the performer is to rest as long as he would be sounding the note it represents.

N. B. according to ancient tradition the semibreve rest fills a bar in all moods.

L E S S O N IV.

A staff

Is five lines and their spaces, calculated to contain the seven different sounds in music.

A ledger line

Is added when notes ascend or descend beyond the limits of the staff.

A brace

Shows how many parts move together.

Tenor

- Tenor and treble cliff  }
 Counter cliff  }
 Bass cliff  }
- The cliff is the first character affixed to a tune. It is considered as the key to open the scale of characters, and fully determines their import. If the cliff be moved from its usual place (which in some instances it is) it transposes the whole staff, by carrying the letter it naturally stands on with it. In the following work the tenor and treble cliff stand on G; the counter on C; and the bass on F.
- A flat b Set before a note serves to lower the sound half a tone.
 A sharp * Set before a note serves to raise the sound half a tone.
- N. B. Both flats and sharps set at the beginning of a tune, have the above influence through the tune, unless contradicted by a different character.
- A natural † Restores a note made flat or sharp to its natural or primitive sound.
 A repeat :: or :S: Directs the performer to sing the same word or strain twice.
 Figures 1 2 At the end of a strain, direct the performer back to a repeat, leaving the note under figure 2 unsung the first time, and the note under figure 1 unsung the last time, unless both figures are connected together with a slur, in which case both should be sung the last time.
 A hold ∞ Gives the performer liberty to continue the sound of the note, to which it refers, beyond its common length. The influence of this character, if rightly managed, is very pleasing. It is not commonly applied to plain tunes, but it is very useful in more particular music. Whenever it occurs, the school or choir should discontinue beating time, dwelling sweetly on the sound, until the master resumes the time in its proper order.
 A mark of distinction † Directs the performer to sing and pronounce the note to which it points, emphatically.
 Figure 3 Diminishes the sound of three notes to the time of two.
 A point . Adds to a note at the right of which it stands, one half of its original length.

A slur		Includes as many notes as should be sung to one syllable.
A direct		At the end of a stave, informs on what line or space the first note stands in the succeeding stave.
A bar		Divides the time into equal parts.
A double bar		Shews the end of a strain.
A close		Shews that the tune is ended.

L E S S O N V. COMMON TIME MOODS.

First,  THIS mood is the slowest now in use. Crotchets are performed, in the time of one second to each. One semibreve, or its quantity in other notes or rests, fills a bar, which requires four beats, two down, and two up. The accents fall on the first and third parts of the bar.

Second,  This mood requires a little quicker movement. The same quantity of notes and rests fills a bar. It is beat and accented like the first, excepting when the tune is principally composed of minims and crotchets, in which case the method of performing it with two beats in a bar is to be preferred.

Third,  This mood requires a quicker movement than the last, having but two beats in a bar; one beat down, and one up. The same number of notes, or rests, are required to each bar. The accents fall on the first and third parts of the bar, but principally on the first.

Fourth,  This mood requires a still quicker movement, having but one minim, or its quantity of other notes, in a bar, which are beat and accented like the last, only one third quicker.

TRIPLE TIME MOODS.

- First,  THIS is the slowest movement in triple time. Three minims fill a bar, which requires three motions of the hand, two down, and one up. Minims, in this mood, should be performed in the same time as crotchets in the first mode of common time. The accents fall on the first part of the bar.
- Second,  Contains three crotchets in a bar—beat and accented like the first—about one third part quicker.
- Third,  Contains three quavers in a bar—beat and accented like the second—nearly one third quicker.

COMPOUND TIME MOODS.

- First,  THIS mood contains 6 crotchets in a bar, of two equal beats, three down, and three up. Each motion requires one second of time. It is accented on the first and fourth parts of the bar.
- Second,  Contains six quavers in a bar—beat and accented like the last—about one quarter part quicker.
-  In beating time, the hand should fall in the first, and rise in the last part of the bar, in all moods.

GENERAL REMARKS and DIRECTIONS.

A THOROUGH knowledge of the five preceding lessons is indispensibly necessary; the attainment of them will sufficiently qualify the pupil for practice. In the next place he may proceed to some plain tune, on a natural sharp key; on which he should be detained until he can read the notes, by letter * and otherwise, and keep the time pretty accurately.—Teachers of music should take great care in the first setting out, that their scholars contract

no

* It is not here intended that a school shall *sing* by letter; but that they shall in the first place learn to *call* every note, in every tune, by the letters which they represent, previous to *singing* by note. Many advantages will accrue both to master and pupil, from such a method of teaching.

no disagreeable habits ; because much of their future proficiency and manner of performance, depends on the first attempt. Performing by the words should not be introduced until the school has attained to a just notion of time and sound, and can read any tune by note and letter, without embarrassment.

Of CHOOSING and ARRANGING the PARTS.

EVERY performer should have that part assigned to him which he can perform with the greatest ease ; otherwise the performance will be unnatural, and consequently unpleasing ; and no performer should sing a solo, or any other strain which belongs to a different part, without particular desire. One voice on a high part, generally requires two or three on the bass, i. e. a school or choir should have more than one half the voices on the bass. Where this is not practicable, a bass viol would be of great service, if the person who uses it is thorough in the knowledge of the instrument. It serves another valuable purpose also, by keeping the voices on their original pitch, as well as by giving them the proper key, and preserving a perfect and uniform tone.

Of PRONUNCIATION.

GOOD pronunciation is one of the first and principal beauties of singing. The mouth should be opened freely, but not wide ; either extreme would destroy a good tone, and prevent just expression. Many singers who read and speak tolerably well, are extremely erroneous in their manner of pronouncing some particular words, when they are set to music ; for instance, the words *reason*, *hearken*, *token*, &c. which have but one accent, are often sung *rea-zon*, *hear-ken*, *to-ken*, which is very disagreeable and improper. Words which end in *ple*, *ble*, &c. are often falsely accented on the last syllable, which renders them thus, *pel*, *bel*, &c. Words ending in *y*, with a few exceptions, should be pronounced as ending in *e*, or short *i*. The *l* should be silent in the words *walk*, *talk*, *calm*, &c. In fine, the best direction which can be given is this ; let every word be sung distinctly, smoothly, and gracefully, every way conformably to the best rules of speaking.

Of A C C E N T.

ACCENT is another very important part of music, which is inseparably connected with good pronunciation : It is properly an agreeable swell or force of the voice ; but it is often erroneously applied to the notes, more like marks

marks of distinction than otherwise ; this is more properly termed a disagreeable *jirking*, than accenting. If the poetry be good, and the music well adapted to it, the accents will fall on those parts of the bars, in the different moods of time, which are pointed out in the fifth lesson ; but where the music does not coincide with the proper emphasis of the words, the music is imperfect, and should give way, or bend to the words. Nothing is more common than false accent, the principal occasion of which is harsh or loud singing. Many singers make two accents on one note, more particularly on a pointed note in binary time, which immediately precedes a fuge, which they break off with such violence, as is truly shocking to a delicate ear. This injudicious practice of *jirking* and *jumping* notes, will effectually tend to prevent *soft* and *graceful* singing, and render the most pleasing compositions disgusting to the audience, and inconsistent with themselves. Were it possible for a performer of common taste, to hear himself at a distance, thus violate the nicest rules of harmony, he would not be guilty of it a second time.* A pointed note which fills three fourths of a bar, notwithstanding it includes two bar accents, cannot consistently with common sense, receive but one. A semibreve should be struck *soft*, gently swelled to the center, and diminished to the end. A number of long notes, driven through bars, should be sounded *fill* and *smooth* to the end. A chain of notes should be sung *soft*, keeping the lips and teeth apart until the slur is finished.

OF T I M E.

NOTWITHSTANDING it is necessary to point out some general rules respecting time and the proportion the different moods bear to each other, that some regular method may be observed in church music, which is subject to a continual change of words ; yet in some particular compositions, authors do and have a right to vary the time to any extreme, by placing particular directions over the strains which they wish to vary ; and it cannot be esteemed a mark of modesty in any performer to counteract the author's directions, by performing his music in a different manner.

* Some erroneously argue (and such is their practice) that every note, and all parts of a note, which occur in those parts of a bar, which are said to be the accented parts, should be accented. This is as much as to say, that authors of music should substitute 4 crotchets for a semibreve, and 3 crotchets for a pointed minim, and slur them together, which is exactly the manner in which they are addicted to sing them. This discovers a want of knowledge and taste, for no one who is acquainted with language and expression, need be told that the natural course of time and accent, must sometimes give way in order to preserve the purity of them.

manner. In beating time great care is necessary that the hand do not influence the voice, by creating misplaced accents, which is almost an universal error. To prevent this, avoid all violent motion; the least motion of the hand or finger is sufficient to preserve the time. In those moods which require three and four beats in a bar, it is more difficult to sing smooth, than in binary time, for the following reason; it often happens that one note requires two, and sometimes three or four motions of the hand, in which case great attention is necessary to prevent the voice from swelling upon each motion of the hand; in this case, as in all others, the music should be performed, with the same evenness and ease as though all beating of time was out of question. No strain should be sung any faster in the quickest mood of time, than will admit of plain, distinct pronunciation. By hurrying a piece of music, performers are apt to sing *harsh* and *uneven*, in consequence of which, the beauty of the subject is obscured, and confusion introduced. Previous to performing by words, it is absolutely necessary that the subject be well understood; the importance of which will be the surest guide.

OF SYNCOPATION.

IT is very difficult to do justice to the composition where notes are driven through bars, and otherwise interfere with the natural course of time and accent, without an able instructor. The common practice is very injudicious and erroneous. In the 3d mood of common time, where a minim stands between two crotchets, it is common to perform them like four crotches, which destroys the intention of the author, and greatly injures the words; particularly where the first crotchet and succeeding minim are slurred together, they should be sung as smooth as possible, in order to prevent a second accent on the word or syllable to which they are adapted. The same precaution is necessary in all modes of time wherever an instance of this kind occurs.

OF SOFT SINGING.*

IN a school, or choir, where soft music is successfully inculcated, it would be difficult for an attentive observer to point out many imperfections. Soft music is always accompanied with graceful motion, just expression, proper accent,

* Most singers, say more or less about soft music, and sometimes attempt to sing soft; but often times before the piece is half performed, being elated with some agreeable sound which occurs, they are led to adopt a contrary practice, and prefer rather to sacrifice a good piece of music, than not have their voices heard. This discovers a great want of taste and judgment; for the nearer music is brought to perfection, the less distinction will be observed in the voices, and the more powerful the voice is, the greater pains should be taken to cultivate and modulate it to a soft and musical tone.

cent, and captivating harmony. On the other hand, harsh singing is attended with convulsive motion, bad pronunciation, misapplied accent, and a disgustful jarring. The latter is too just a description of the present mode of singing, occasioned in a great measure by a mistaken idea, which many entertain, that good music consists principally in great quantity of sound; but, just the reverse of this is the case. In performing *fortes* and *fortissimos*, the voice should not be extended beyond its natural elevation; in performing *pianos* the voice should be reduced to as small a degree of sound, as will just admit of intelligible pronunciation; and in all common strains, a medium should be constantly observed, neither so faint, as to dwindle into indifference, nor so loud as to admit of a single harsh tone, or obscure the language. Such a practice, if once adopted and pursued, will not fail to arrest the attention and gain the approbation of every adequate judge of music. A reform in these particulars must begin with teachers of music; hence the great importance of employing such instructors, as will, by their example as well as precept, inculcate soft, smooth, and graceful singing. *Solos* should be sung soft, high notes clear, but not loud, except the subject requires it. In singing the counter, great attention is necessary, that every note be touched soft, and smooth, otherwise the counter will predominate, which is very inconsistent with the principles of music.

OF DIRECTORY TERMS.

A STRICT and constant adherence to the terms, *moderato*, *vivace*, *forte*, *piano*, &c. will add greatly to the beauty of the performance, and are of as great importance as any other characters in music.—No one, it is presumed, will dispute the necessity of such terms as are occasionally placed over the music; yet singers in general are so regardless of them, that the effect they are intended to produce on the audience, is entirely lost. When the term *moderato* occurs, the strain should be performed at least one third part slower. The same difference should be observed in all other terms, particularly in *piano*. The surprising good effect of such a method, if once properly adhered to, will be better explained by the attention it will command in every audience, than can be otherwise described.

OF GRACES and ORNAMENTS.

THE *trill*, notes of *transition*, &c. have not been attended to in the preceding rules; it being much better to omit, than attempt them in young schools. The most important graces and ornaments of music, are natural and
complishments;

complishments ; it is therefore impossible to acquire them mechanically, so as to add to the real beauty of the music. Upon the whole, let every note be sung as it stands, without affecting any airs, or supposed graceful variations. The greatest ornament in singing, is a decent, modest deportment, and a heart deeply impressed with a due reverence for the name and worship of that infinitely exalted Being, to whom we owe our existence, and every blessing, and to whose praise we should ever tune our voices.

PARTICULAR REMARKS.

IN tunes of four parts in score, the parts are thus arranged ; 1st, the bass, 2d, the tenor, 3d, the counter, and 4th, the treble. In tunes of three parts, the middle part is considered as the air, where it is not expressed otherwise in the beginning of the stave. The pitch of a tune should be taken from the key note of the bass.

MUSICAL TERMS.

A DAGIO	very slow,	Fortissimo, or fortis.	louder than forte,
Andante	distinctly, moderately,	Moderato	moderately, not so fast,
Binary time	two equal motions,	Mezza piano	not quite so soft as piano,
Crescendo or cres.	to increase the sound,	Piano, or Pia.	soft and sweet,
Diminuendo, or dim.	to diminish the sound,	Pianissimo or pianis.	very soft,
Duetto	two parts only,	Solo	one part alone,
Dacapo	to conclude with the first strain,	Vivace	lively, quick and bold,
Forte or for.	full, loud, or strong,	Volti.	turn over

† Those tunes which are ascribed to Williams in the Index, were extracted from his collection printed in London in the year 1764.

China. L. M. Words by Dr. Watts. Original.

Nature with all her pow'rs shall sing, God the Creator and the king, Nor air, nor earth, nor skies, nor seas, Deny the tribute of their praise.

Funeral Hymn. C. M.

Words by Dr. Watts.

17

Moderato.

Piano.

Why do we mourn de - part - ing friends, Or shake at death's a - larms! 'Tis but the voice that

Je - - sus sends, 'Tis but the voice that Jesus sends, 'Tis but the voice that Jesus sends, To call them to his arms.

Piano.

A - - - rise, my soul, my joy - - - ful pow'rs, And tri - - umph in my God; A - wake, my voice, and loud proclaim His

The first system of the musical score consists of four staves. The top two staves are for the vocal line, and the bottom two are for the piano accompaniment. The music is in 3/4 time with a key signature of one sharp (F#). The lyrics are written below the vocal staves.

glorious grace abroad. A - wake, my voice, and loud proclaim His glo - - - rious grace a - - - broad.

The second system of the musical score continues the piece. It also consists of four staves. The lyrics are written below the vocal staves. The piece concludes with a double bar line and repeat signs.

Lo, what an en-ter - rain-ing fight. Are brethren who a - gree; Breth - ren whose cheer-ful hearts u - - nite

The first system of the hymn consists of four staves. The top two staves are for the vocal line, and the bottom two are for the piano accompaniment. The music is in common time (C) and features a simple, hymn-like melody. The lyrics are printed below the vocal staves.

In bo - - - - - nds of pi - e - - ty.

The second system of the hymn also consists of four staves. It continues the melody and accompaniment from the first system. The lyrics are printed below the vocal staves. The system concludes with a double bar line and first and second endings marked with '1' and '2' above the notes.

Moderato.

Earth has de - tain'd me pris'ner long, And I'm grown weary now ; My heart, my hand, my

The first system of music consists of three staves. The top staff is a treble clef with a key signature of two flats (B-flat and E-flat) and a common time signature. The middle staff is a vocal line with lyrics. The bottom staff is a bass clef with a key signature of two flats and a common time signature. The music is in a moderate tempo.

ear, my tongue, There's noth - ing here for you, There's nothing, noth - - ing here for you.

The second system of music consists of three staves. The top staff is a treble clef with a key signature of two flats and a common time signature. The middle staff is a vocal line with lyrics. The bottom staff is a bass clef with a key signature of two flats and a common time signature. The music concludes with a double bar line and repeat dots.

fly to unknown lands.

lands.

Andon. P. M. Words by Rely.

The first system of music consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. Both are in 3/4 time. The melody in the treble staff begins with a half note G4, followed by quarter notes A4, B4, and C5. The bass staff provides a simple accompaniment with quarter notes G2, A2, and B2.

My Redeemer let me be quite happy at thy feet, Still to know myself and thee, be this my bitter sweet. Look upon my infant

The second system continues the melody from the first system. It features similar rhythmic patterns and melodic lines in both the treble and bass staves, maintaining the 3/4 time signature.

The third system of music shows the continuation of the piece. The treble staff has several notes marked with an asterisk (*), possibly indicating specific performance instructions or ornaments. The bass staff continues with its accompaniment.

late, and with a father's yearning blefs, Don't thy ransom'd child forget nor leave me in distrefs.

The fourth and final system of music on this page. It concludes the piece with a final cadence in both staves, ending with a double bar line and repeat dots.

Ye sons of men with joy record The various wonders of the Lord, And let his pow'r and good - ness sound Thro' all your tribes the world around.

Let

Let the high heav'ns you

mies we'll sing, Hal - le - lu - jah, Hal - le - lu - jah, Halle - lu - jah, Glo - ry, Glo - ry, Lord be thine.

Let the Redeemer's name be sung Thro'

Let the Creator's praise arise,

From all that dwell below the skies,

ev'ry land by ev'ry tongue, Let the Redeemer's name be sung, Thro' ev'ry land by ev'ry tongue.

I

Through ev'ry age e - - ternal God, Thou art our rest, our life abode; High was thy throne ere

High was thy throne ere heav'n was made, High

High was thy throne ere heav'n was made, Or earth thy humble footstool

was thy throne ere heav'n was made, Or earth thy humble footstool laid, Or, &c. Or earth thy humble footstool laid,

made, High was thy throne ere heav'n was made, Or earth thy humble footstool laid, &c.

was thy throne ere heav'n was made, Or earth thy humble footstool laid, &c.

Winchester. L. M. Words by Dr. Watts.

67

My God accept my early vows, Like morning incense in thy house; And let my nightly worship rise, Sweet as the evening sacrifice.

The musical score for 'Winchester' consists of four staves. The first staff is the vocal line in treble clef with a 2/4 time signature. The second staff is the piano accompaniment in treble clef. The third staff is the vocal line in treble clef. The fourth staff is the piano accompaniment in bass clef. The lyrics are written below the second and third staves.

Wells. L. M. Words by Dr. Watts.

Life is the time to serve the Lord, The time to insure the great reward; And whilst the lamp holds out to burn, The vilest sinner may return.

The musical score for 'Wells' consists of four staves. The first staff is the vocal line in treble clef with a 3/4 time signature. The second staff is the piano accompaniment in treble clef. The third staff is the vocal line in treble clef. The fourth staff is the piano accompaniment in bass clef. The lyrics are written below the second and third staves.

Samure. C. M. Words by Dr. Watts.

There the great Monarch of the skies His saving pow'r displays, And light breaks in upon our eyes With kind and quickning rays.

The musical score for 'Samure' consists of four staves. The top two staves are for the vocal line, and the bottom two are for the piano accompaniment. The key signature is one sharp (F#) and the time signature is 3/4. The music is in common meter (C. M.).

Africa. C. M. Words by Dr. Watts.

Now shall my inward joy arise, And burst in - to a song, Almighty love inspires my heart And pleasure tunes my tongue.

The musical score for 'Africa' consists of four staves. The top two staves are for the vocal line, and the bottom two are for the piano accompaniment. The key signature is two flats (Bb, Eb) and the time signature is 3/2. The music is in common meter (C. M.).

Westminster. C. M.

Words by Dr. Watts.

69

The King, O Lord, with fo
ags of praise, Shall in thy strength re - joice; And blest with thy Sal-

This system contains the first four staves of music. The first two staves are treble clef, and the last two are bass clef. The music is in common time (C). The lyrics are written below the second and third staves. There are asterisks at the beginning of each staff. The first staff ends with a double bar line and a fermata. The second staff ends with a double bar line and a fermata. The third staff ends with a double bar line and a fermata. The fourth staff ends with a double bar line and a fermata.

vation raise, To heav'n his cheerful voice, And blest with thy Sal - vation raise, To heav'n his cheer - - - ful voice.

This system contains the last four staves of music. The first two staves are treble clef, and the last two are bass clef. The music is in common time (C). The lyrics are written below the second and third staves. There are asterisks at the beginning of each staff. The first staff ends with a double bar line and a fermata. The second staff ends with a double bar line and a fermata. The third staff ends with a double bar line and a fermata. The fourth staff ends with a double bar line and a fermata.

The first system of the musical score consists of four staves. The top staff is a treble clef with a key signature of one sharp (F#) and a common time signature (C). The second staff is an alto clef with the same key signature and time signature. The third staff is a treble clef with the same key signature and time signature. The fourth staff is a bass clef with the same key signature and time signature. The lyrics are written below the second and third staves.

How pleas'd and blest was I, To hear the people cry, Come let us seek our God to - day;

The second system of the musical score consists of four staves. The top staff is a treble clef with a key signature of one sharp (F#) and a common time signature (C). The second staff is an alto clef with the same key signature and time signature. The third staff is a treble clef with the same key signature and time signature. The fourth staff is a bass clef with the same key signature and time signature. The lyrics are written below the second and third staves.

Yes, with a cheerful zeal, We haste to Zion's hill, And there our vows and honours pay.

Go worship at Im - - man-uel's feet, See in his face what won - ders meet! Earth is too

The first system of musical notation consists of three staves. The top staff is a treble clef with a key signature of one flat (B-flat) and a time signature of 3/4. The middle staff is a vocal line with lyrics underneath. The bottom staff is a bass clef. The music features various note values, including quarter, eighth, and sixteenth notes, with some notes beamed together. There are also rests and dynamic markings like 'w'.

nar - row to ex - press His worth, his glo - ry or his - grace.

The second system of musical notation also consists of three staves. The top staff continues the vocal line with lyrics. The middle staff continues the vocal line. The bottom staff continues the bass line. The music includes first and second endings, indicated by '1' and '2' above the notes. There are also dynamic markings like 'w' and 'f'.

Chester. L. M. Words by Dr. Watts.

Let the high heav'ns your songs invite, Those spacious fields of brilliant light; Where sun, and moon, and planets roll, And stars that glow from pole to pole.

Hebron. P. M. Words by Dr. Watts.

He

The shining worlds a - bove, In glorious order stand, Or in swift courses move, By his supreme command.

spake the word, And all their frame From noth - ing came, To pra - ise the Lord.

He spake the word, And all their frame From nothing came, To praise the Lord.

He spake the word, And all their frame From noth - ing came, To praise the Lord.

He spake the word, And all their frame, From noth - ing came, To praise the Lord.

Westford. P. M. Words by Dr. Watts.

Air.

Almighty God, to thee be endless honours done, The undivided Three, And the mysterious One; Where reason fails with all her pow'rs, There faith prevails, and love adores.

Bangor. C. M. Words by Dr. Watts.

Largo.

Teach me the measure of my days, Thou maker of my frame, I would survey life's narrow space, And learn how frail I am.

The musical score for 'Bangor' consists of four staves. The top staff is a treble clef with a key signature of one sharp (F#) and a common time signature (C). Aberdeen. C. M. Words by George Richards. Original.

117

The first system of musical notation for 'Aberdeen' consists of two staves. The upper staff is in treble clef with a key signature of one flat (B-flat) and a common time signature. The lower staff is in bass clef with the same key signature and time signature. The music is written in a simple, hymn-like style with various note values and rests.

Th' Almighty spake and Gabriel sped Upborne on wings of light, Jehovah's glory round him spread, Jehovah's glory round him spread, And chang'd to day the night.

The second system of musical notation for 'Aberdeen' consists of two staves, continuing the melody and bass line from the first system. It includes first and second endings, indicated by '1' and '2' above the final notes.

West End. L. M. Set to the 43th hymn of the 1st book Dr. Watts. Original.

The first system of musical notation for 'West End' consists of two staves. The upper staff is in treble clef with a key signature of one flat (B-flat) and a common time signature. The lower staff is in bass clef with the same key signature and time signature. The music begins with an asterisk on the treble staff. It features a simple melody with some rests.

Awake our souls, away our fears, Let ev'ry trembling thought be gone, Awake and run the heav'nly race, And put a cheerful

The second system of musical notation for 'West End' consists of two staves, continuing the melody and bass line from the first system. It includes an asterisk on the treble staff and first and second endings, indicated by '1' and '2' above the final notes.

Mod.

The image shows a musical score for a piece titled "West End Continued". The tempo is marked "Mod." (Moderato). The score is written on ten staves, with the first two staves of each system containing vocal lines and the remaining staves containing piano accompaniment. The lyrics are printed below the vocal lines. The music features various note values, including quarter, eighth, and sixteenth notes, as well as rests and accidentals. There are several asterisks (*) scattered throughout the score, possibly indicating specific performance instructions or corrections. The lyrics are: "courage on. 'Tis a freight and thor' ny road, And mortal spirits tire and faint, But they forget the mighty God, Who feeds the strength of ev'ry saint. The mighty God whose matchless pow'r, is ever new and eve".

courage on. 'Tis a freight and thor' ny road, And mortal spirits tire and faint, But

they forget the mighty God, Who feeds the strength of ev'ry saint. The mighty God whose matchless pow'r, is ever new and eve
